Empowering Women & Girls *In an Uncertain & Rapidly Changing World*

This SIE Immersion is a unique 10-day learning experience that brings diverse changemakers together within the “living classrooms” of our host communities to explore the unlimited possibilities of human potential, with a focus on women & girls.

Participants will gain new insights into how to think about complex problems and effectively integrate and apply the principles of social innovation & entrepreneurship (SIE) to address the urgent adaptive challenges we face in an uncertain and rapidly-changing world.

What can you expect from our Guatemala program?

Hear from past participants of our Bali SIE Immersion!

The Bali SIE Immersion is a collaboration between

Charlie Gardner
2019 Program Participant, Adventure Travel Trip Leader & Impact Storyteller, Documentary Maker

“ This was an incredibly eye-opening experience that will change the course of my life. Bali cracked my heart wide open and fed my soul hope for the future...

A special thank you to the SIE CoLab and Bali Institute for being remarkable mentors and guides in this once-in-a-lifetime adventure. ”

Isabella McLain

2023 Program Participant, Urban & Regional Planner

“ Be prepared for a journey of a transformation of consciousness...

In just a short time after the program, I have begun making monumental shifts on my “Hero’s Journey” and have been following my bliss/calling to pursue my creative and big dreams. ”

Ally Davis

2023 Program Participant, Urban & Regional Planner

“ The balance between structured site visits and open discussions allowed me to deeply engage with the key issues Bali faces—such as environmental sustainability, tourism’s cultural impacts, and women’s empowerment—while also reflecting on these themes with my peers.

This combination of experiential learning and practical application deepened my ability to think critically about complex global issues and inspired me to develop innovative, community-driven solutions that address real needs. ”

“ It’s been six years since I participated in the Bali SIE Immersion program —it has permanently reshaped how I approach challenges and connect with others.

The inspirational magic of Bali filled my soul and the immersive curriculum opened up a new way of seeing the world and leading positive change.

The experience motivated me to merge my creative skills and passions with a human-centered impact framework and apply this new lens through the fields of design and marketing. ”

Nikki Ferrara

2019 Program Participant, Marketing & Design Professional
